

BHARATIYA VIDYA BHAVAN SOHAN LAL PUBLIC SCHOOL
CURRICULUM PLAN
CLASS 5
SESSION (2021-2022)

English

Book Name: New Learning To Communicate

Grammar: Clime with Corner Stone

Month	Name of the Topic	Subject Topic	Learning Objectives	Online /Art integrated Activities	Outcome of Learning
April	a. Ch.–Life Lighter Moment	-----	We should save our pocket money	-----	Students will learn about moral values like helping and sharing.
	b. Nouns and its kinds	Kinds of Nouns (Common, Proper, Collective abstract	To speak about the name of person, play, animal or thing	Students will identify so many nouns sitting in their room.	Students can identify any noun from anywhere and try to differentiate their kinds.
	c. Too many book	-----	Too much interest in boo	----	Students will learn about having more interest in reading and restoring books.

May	a. Subject and Predicate	Explanation	To identify the difference between subject and predicate	Two teams one will speak the subject and others will speak predicate	Students will easily identify the sentences of subject and predicate with the help of helping verbs also.
	b. Prefixes and Suffixes	Explanation	How to make prefixes suffixes	Write some base words and make teams of students.	Students will master the skill needed to become more efficient readers. It also boosts comprehension.
June	a. The sentence and its kinds	Assertive Imperative Interrogative Exclamatory	To identify and understand the types of sentences	Play sentences games with index cards.	Students will be able to demonstrate their ability to write 4 different kinds of sentences.
	b. Numbers and Genders	-----	To identify between male and female and from singular to plural	Online videos regarding numbers and genders	Students will be able to know about value of unity and appropriate use of grammar
	a. Kindsof Adjectives b. Comparisonof Adjectives c. Pronouns	Quality, Quantity Number, Ordinal, Demonstrative, Interrogative , Possessive	Able to create or select vivid objectives to enhance their writing	Riddle games, circle the adjectives on favourite tones, Noun showdown, adjective match, introduce	Students will read and understand the descriptive text and students will be able to construct grammatically correct sentences.

				yourself	
July		Positive Comparative Superlative	To compare difference between two objects. They are used in sentences where two nouns are compared.	Comparison in brother and sisters (Including their height, size, weight etc.	Students will be able to create the comparative objectives.
		Subject Pronoun Object Pronoun Demonstrative Interrogative Possessive	Students will be able to recognize pronouns and distinguish them from other parts of speech.	Online videos, balloon, Pronoun game	Students will recognize and use different types of pronouns and will be able to construct correct sentences
August	a. Articles	Use of a, an, the	Students will identify a definite and indefinite article	Fun activities through worksheets	Understand how three different articles are used, Identify which article is correct for different norms.
September	a. Revision Of Recap to be held in first week of October	All the topics covered in Term 1 will be included	A thorough revision of all topics will enable children to get answers for their queries and will also help them have command on the topics.	Oral test will be conducted where children's understanding of the concept will be judged and their problems will	Students will get confidence when they will answer in front of all and all the mutual problems will be solved.

				be solved then and there.	
October	<p>a.)Delicious Buns</p> <p>b.) Present, Past and Future Continuous Tense</p> <p>c.) Importance Of Cleanliness</p>	<p>Explanation</p> <p>Explanation of Topic in brief</p>	<p>Hunger can make you do anything but one cannot escape from an intelligent person.</p> <p>To identify the different forms of verbs</p> <p>Learning the framing of senten by their own by looking at the world around them</p>	<p>Two teams one will give the question and the other one will change it according to instructions .</p> <p>Write some more points regarding the cleanliness of our surroundings</p>	<p>Students will learn that one must not steal no matter what.</p> <p>Students will easily identify the continuous types of sentences and their usage will be thoroughly cleared.</p> <p>Students will master the skill to frame the composition all by themselves</p>
November	<p>a.) Adverbs</p> <p>b.) Comparison Of Adverbs</p>	<p>Kinds Of Adverbs</p> <p>The three degrees of Adverbs</p>	<p>To identify and understand the places where different Adverbs are being used</p> <p>To identify the three degrees and its usage</p>	<p>Play sentences games</p> <p>Practice Exercise and worksheet will be provided and oral questioning</p>	<p>Students will able to demonstrate their ability to understand the concept of different types of Adverbs.</p> <p>Students will be able to know about usage and meaning of various adverbs in the sentences</p>

	c.)Perfect Tense(Present and Past)	Use of Sentence in its perfect form.	Students will come to know about the time when we use Has, Have and Had.	will be there. The rapid fire games will be played to create interest of students in studies.	The students will be thorough about use of Has, Have and Had and will be able to identify where these helping verbs will be used.
December	a.)Prepositions b.) Informal Letter c.)Conjunctions d.)Present and past participle e.)Capital Let f.)Question Tags g.) Transformation of Sentences	Kinds Of Prepositions The correct format of letter Joining of letters, group of letters or sentences. The use of -ING form of the verb and the 3 rd form of th verb will be explained. The use of capital letters Negative and Positive question tags Transforming positive to negative,interr ogative and exclamatory sentences	To understand how to link with nouns and pronouns with rest of the sentence. To make children understand how to write letter to loved ones To make students know how to join sentences and words using correct joining words. Enable children to use the correct form of participles Th students will be told the various sentences and words where capital letters will be used The students will be told the use of positive and negative words according to the sentences	The children will be given live examples of the things around them according to its place ,time and movement The children will be asked to try to their own reasons Example will be given from the online class while sitting at home. The riddle games and flash card will be shown for the better understanding The children will be taught	The children will be able to join the Nouns and the Pronouns with the rest of the sentence. Students will get confidence in writing any kind of letter The children will be able to use And, But,Because,Or, Semi Colons and Colons in their daily life. The children were able to understand the various forms of verbs. The children learnt the various areas with ease and interactive games where the capital letter will be used. The children will find it easy to transform the sentences once the basic meaning of the sentences is cleared.

			<p>The children will be explained according to the rules of transforming the various sentences</p>	<p>through games and giving live examples</p> <p>A conversation methods between two students will be adopted to explain the concept</p> <p>A riddle game and rule game will be played to make the topic creative</p>	<p>The children will find it easy to transform the sentences once the rules are cleared.</p>
January	<p>a.) Visit to a railway station</p> <p>b.) Interjection</p>	<p>_____</p> <p>Hmm, Ough, Ouch, Wow, Splendid , Alas</p>	<p>The children will be made to write down points that come s in their mind in a creative way</p> <p>The children will be taught how expressions ate to be known well before the use of interjections. (express emotions)</p>	<p>The children will make a track fan while discussing with their teachers</p> <p>The children will be given examples by asking them to show their emotions and framing sentences out of it</p> <p>The children will listen to the story and flash cards</p>	<p>The children learn to frame the sentences by their own with the help of track fan.</p> <p>The children will find it interesting how different emotions are given different names</p> <p>The children will be able to narrate the</p>

		et	We are our own ruler and we do not owe to anyone	will be shown to them.	stories themselves.
	c.) A Bow Before a Hat	Present and Past Use of BY Use of 3rd form of verb	The children will be explained rules for changing active to passive	The students will find it easier to learn through riddle games	By teaching things in relation to tenses will make ot possible for the children to learn
	d.) Active and Passive Voive				
February	A detailed Revision of all the topics covered .	The revision sheets will be prepared according to the syllabus of Term 2	The children will be able to solve their queries in the discussions to be held	The children will be given oral drilling and concepts and rules of various grammar topics	The children will find it easy to attempt the paper as they will be thoroughly revised before exam.

Mathematics

Book : Maths all the way

Sapphire Publishers by Vandita Saxena , Mala Sinha

Months	Name of the Chapter	Sub Topic	Learning Objectives	Online /Art integrated Activities	Learning outcomes
April	Understanding the whole number and numeration	Number name, Numerals, Expanded Compact Ascending, /Descending, Place value, International place value roundoff	Know about numbers Comparison of numbers	Flash Card Numerical riddles Assignment for extra drilling Hands activities	Differentiate between Lakhs and Crores Compare the number in daily life
MAY	Addition, Subtraction, Multiplication Division	Four operation, story sums, Divisibility rule BODMAS	Know about adding, subtracting, Multiplying, Division of numbers Find out short cut method to divide number	Mental maths, Dodging Vedic maths formulas Tables on hand	Students will be able to solve the daily life problem Can easily manage and help their parents in purchasing and other activities.
JUNE	Integers June 15 to June 30 holidays	Four operation on Integers	Will be able to learn about negative number	Number line Integer song	Easily understand about the difference between the profit and loss, hot and cold temperature, distance of height and depth.
JULY	Perimeter and Area	Perimeter of rectangles, square Area of rectangle and square Factor, Multiples, Prime no. H.C.F, L.C.M	Will be able to know about the other boundary and area Learn about factor multiples	Perimeter and area song Song Sieve of Eratosthenes Clap method	Can easily use this in daily life like wants to buy lace for dupatta, bedsheets, in making fence or they can use it in garden for making lawn. It helps students in the planting of trees in their lawn. Will also help in distributing the

					things among some people.
AUGUST	Fraction	Four Operation on fraction	Will able to know how to add ,subtract the fraction Also know about equivalent fractions	Paper dance Paper folding	Student will help in kitchen in preparing many things Will help in dividing things among people
September : First terminal exams					
October	Decimal	Introduction conversion operations on decimal numbers	Acquainted with decimals numbers and its operations	To find the product of two decimal numbers with grid paper	Not only able to solve the mathematical operations on decimal but also can use in daily life
November	Percentage Volume	Understanding of percentage conversion and find its value Volume of cube and cuboid	Knowledge about relation of fraction with percentage and also able to find the value Know about volume and table to find out it	Self made videos/link of videos on YouTube To find out the volume of different utensils at home	Easily find out the value of percentage whenever go to buy the things in the malls or in the market Able to differentiate between volume and area and also how to find the volume of different objects
December	Ratio and unitary method Profit and loss	Understanding of ratio and unitary method Find profit loss cost price selling price	Able to compare the things and easily find out the value of things Able to know about profit and loss	Self made videos and videos from YouTube Make a project and ask other student to buy it and then they will find out whether they suffers profit or loss	Easy computer things and able to find out the value of object in a way go to the market Acquainted with profit loss cost price selling price and can use in daily life

January	Average Measurement of length mass and capacity	Find out the average of the numbers Conversion and operation on the different quantities	To find the average of numbers in simple formula Able to convert different units from higher to lower and lower to higher	Online video from YouTube Ask to take different utensils, objects from home and will compare which can be measured in grams or kilograms liters or milliliters	Able to know about the concept of average and can find out it. Able to differentiate between the units of different quantities and can use in daily life
February	Geometry	Definitions of lines angle and its type triangle and its type	Acquainted with angles triangles and its types	With the help of clock find out the different types of angles between the two needles on different time period	Able to know about different types of angles and triangles can use in mathematics

Science

Book Name: New Science in Everyday Life.

MONTH	NAME OF CHAPTER	SUB TOPICS	LEARNING OBJECTIVES	Online/Art Integrated ACTIVITIES	OUTCOMES OF LEARNING
APRIL	Growing Plants	Growing plants from seeds - germination - dispersal and its methods Growing plants from roots Growing plants from stems Growing plants from leaves Agriculture – stages of agriculture	Students should be able to know - - how to grow plants from seeds? - the process of germination - need of dispersal of seeds - methods of dispersal - how plants grow from roots? How plants grow from leaves? What is agriculture and what are its various stages - kharif and rabi crops	To show the internal structure of a bean seed. To perform an activity of seed germination in a pot	Students will be able to - grow plants from seeds, roots and leaves. They will be able to understand the process of seed germination. They will be able to know - dispersal of seeds by different methods - agriculture and its stages - two types of crops - kharif crops and rabi crops

MAY	Safety and first aid - aid	Safety from fire First aid - First aid for — - cuts and scratches - fracture - burns - nose bleeds - sprains - animal bites	Students should be able to know about - safety from fire and prevention from fire hazards - giving first aid to the person having any minor and major injury	Video showing the different ways of giving first aid to injured persons.	Students will be able to understand - To keep themselves safe from fire They will be able to learn - various methods to give first aid to injured persons in any minor or major injury
JUNE	Solids liquid and gases (Break from 15 June to 30 June)	Particle arrangement in matter Change of state - evaporation - condensation - melting - solidification Solutions Miscible and immiscible liquids Changes around us - physical changes -	Students should be able to know - the arrangement of particles in different states of matter - the process of evaporation, condensation, melting, solidification Different types of solutions Different types of liquids Various types of changes around us	Activities showing the inter conversions of three states of matter i.e evaporation condensation, melting and solidification. An activity to prepare different types of solutions. To prepare miscible and immiscible liquids. Various changes were shown to the students to make them understand about the	Students will be able to - differentiate between solids liquids and gases in terms of their particle arrangement - differentiate between melting and solidification - identify different kinds of solutions - understand the difference between immiscible and miscible liquids - physical and

		chemical changes Expansion and contraction		physical and chemical changes	chemical changes Students will be able to understand the expansion and contraction and can answer Why a tight metal lid of glass jar can be opened when dipped in warm water? -
JULY	Skeletal system and nervous system	Skeletal system - skull - Ribcage - Backbone - limbs - girdles Joints and their types in human body Muscles and their types Nervous system - brain - spinal cord - nerves - reflex actions Sense organs	Students should be able to understand about our - skeletal system - how it is made of? - how does it Help us to move? - nervous system - parts of nervous system - functions of our brain , spinal cord and nerves - how does the reflex action take place? - functions of our sense organs	Pictures showing - the various parts of our skeletal system - various joints in our body A video showing the various parts of human brain and how does it control different activities Of human body. - A video showing how does a reflex action take place?	Students will be able to Understand - the various parts of human skeleton - various joints in human body They will be able to Differentiate between smooth, cardiac and skeletal muscles. They will be able to know the functions of our brain. They will be able to understand how do their body respond to various stimuli immediately.

<p>August</p>	<p>Animals : habitat and adaptations Different types of habitats : forest, Desert, Polar regions and mountains , ocean , freshwater</p> <p>Adaptations : Body covering, organs for breathing , organs for movement</p> <p>Eating habits : Herbivores, carnivores and omnivores</p>	<ul style="list-style-type: none"> • To develop interest among students about the habitat and adaptations of animals. • To make them to understand about the features and habitats of different animals. • To make them to understand about the different feeding habits of animals, according to their need and type of mouth parts. 	<ul style="list-style-type: none"> • To observe the specimens of various animals to know about their special features . • To observe the pictures of different animals, to study their adaptations. • To show a video with the explanation of breathing organs and movement through various body parts . 	<ul style="list-style-type: none"> • Students will develop an interest and love for animals. • They will be able to understand the adaptations of various animals. • They will be able to identify the adaptations and habitat of different animals like camel, polar bear, snake, eagle, chameleon and aquatic animals also. 	
<p>September</p>	<p>Revision of the syllabus</p>	<p>First terminal exams</p>			
<p>October</p>	<p><u>Chapter :</u> <u>Air and Water</u> Air and its Properties</p> <p>Atmosphere and its layers</p> <p>Water</p> <p>Soluble and insoluble</p>	<ul style="list-style-type: none"> • To develop the interest among students to know about the air and our atmosphere. • To make the students aware about the different types of impurities 	<ul style="list-style-type: none"> • To study the -composition of air -layers of atmosphere Activities to study the properties of air- To prove that air has weight, It occupies space and it exerts 	<ul style="list-style-type: none"> • Students will learn the percentage of various gases in the air. • Students will learn about the layers of atmosphere. • Students 	

	impurities + methods to remove them	in water and to make them to learn methods to remove them through different purification methods.	pressure. Activities to remove the soluble and insoluble impurities from water	will understand that air has weight, it occupies space and it also exerts pressure. <ul style="list-style-type: none"> Students will learn how to remove impurities from water. 	
November	Force and energy: Effects of Force Types of forces Energy: different forms of energy Renewable and non renewable energy Simple machines	<ul style="list-style-type: none"> To make the students aware about the Effects of forces different types of forces To develop interest among students about different forms of energy. To develop curiosity about various simple machines that we use in our daily life. 	<ul style="list-style-type: none"> Teacher will explain about force and its effects with various examples and activities(performed by teacher and students). Teacher will tell about the different forms of energy. Various examples will be taken from surrounding to tell the students about the use of Simple machines in our daily life. 	Students will understand , what is force and its effects. <ul style="list-style-type: none"> Students will come to know about the various forms of energy. Students will become able to know the use of different types of simple machines in our daily life. 	
December	Earth Sun and moon : Solar system Earth and its internal structure	<ul style="list-style-type: none"> To develop curiosity among students to know about the universe. 	<ul style="list-style-type: none"> Teacher will use a model and show a video while discussing the solar system. Teacher will 	<ul style="list-style-type: none"> Students will come to know about the movements of planets around sun . 	

	<p>Sun Moon and its phases</p> <p>Eclipse Solar Eclipse Lunar eclipse</p>	<ul style="list-style-type: none"> To make the students able to think and understand about what is happening in the universe. To make them understand about solar and lunar eclipse. 	<p>show the internal structure of the Earth by using a model.</p> <ul style="list-style-type: none"> To explain about moon and its phases , teacher will show a video. Through an activity teacher will discuss about eclipses. 	<ul style="list-style-type: none"> Students will come to know that Earth has 3 layers. Students will come to know about the reason of solar and lunar eclipse 	
January	<p>Measurement : History of measurement</p> <p>Measurement of – Length Mass Capacity Time temperature</p>	<ul style="list-style-type: none"> To make the students aware about measuring different things and to have an idea about the measurement process in earlier time. 	<p>Teacher will discuss how the people in earlier time used various body parts for the measurement.</p> <ul style="list-style-type: none"> By measuring length, mass, capacity, time and temperature of various objects, teacher will explain the concept of measurement. 	<ul style="list-style-type: none"> Students will become aware about the old time methods of measurement . Students will understand about measurement of things and come to learn the standard units of measurement for measuring- length capacity, time and temperature of any object. 	
February	Revision of syllabus	Final term exams			

Social Science

BOOK NAME: Social Studies Success

Month	Name of the chapter	Sub/Topics	Learning objectives	Online /Art integrated Activities	Learning outcomes
April	Means of Transport	<ol style="list-style-type: none"> 1. Roadways 2. Railways 3. Waterways 4. Airways 	<ol style="list-style-type: none"> 1. Need for means of transport 2. To make them aware of development of roadways. 3. Major railway routes of the world. 4. Major sea routes. 5. Disadvantages of means of transport. 	<ol style="list-style-type: none"> 1. PPT's are shown on screen. 2. Videos recording the Suez Canal route and the Panama Canal route. 3. Make a list of major international Airport in India. 	<ol style="list-style-type: none"> 1. This chapter will make the students curious about various features of our country like PirPanjal railway tunnel, Atal (Rohtang tunnel). 2. This chapter will enhance the life skill of thinking among student.
May	The Revolt of 1857	<ol style="list-style-type: none"> 1. Coming of European traders to India. 2. The battle of Plassey (1757) 3. Injustice of the British 4. Revolt of 1857 5. Suppression of the revolt. 	<ol style="list-style-type: none"> 1. The meaning of Revolt. 2. Why the Battle of Plassey happened? 3. Reasons for discontentment among Indians. 4. Suppression of Revolt. 5. To inculcate bravery, patriotism and selfless service. 	<ol style="list-style-type: none"> 1. Role play done by students 2. Clippings of short film will be shown 3. Note on freedom fighter Mahatma Gandhi, Bhagat Singh 	<ol style="list-style-type: none"> 1. Students will learn the importance of freedom. 2. They will learn the value of unity. 3. They will be able to learn social-emotional life skills.
June Summer Break from June 15- June 30	Maps – Our Guides	<ol style="list-style-type: none"> 1. Meaning of Maps 2. Types of Maps 3. Language of Maps 	<ol style="list-style-type: none"> 1. To enhance their general knowledge. 2. To develop practical approach 3. To identify location of various places on map 	<ul style="list-style-type: none"> *Draw a sketch of different maps. *Draw different signs and symbols on map. *Use of scale to calculate the distance. 	<ol style="list-style-type: none"> 1. Students will learn how to use their knowledge practically. 2. They will learn to locate various places by map. *They will be able

					to learn life skills of thinking.
July	The World of Growing Knowledge	<ol style="list-style-type: none"> 1. Introduction of the chapter 2. Writing 3. Numbers 4. Art of Printing 5. Story of Paper 6. Braille Script 7. Literacy and Progress. 	<ol style="list-style-type: none"> 1. To make them aware of history of knowledge 2. How early humans learnt about things? 3. Why observation and experimentation is important for learning? 4. How literacy and progress are closely related? 	<ul style="list-style-type: none"> • Online quiz competition. • Students will make their own pictorial symbols to write their names. • They will learn 18 raille script. 	<ul style="list-style-type: none"> *Students will learn importance of nature. *They will become more sensitive towards environment. *knowledge is the greatest healer for mankind. * They will learn emotional life skills.
August	Democratic Republic of the Congo	<ol style="list-style-type: none"> 1. Introduction of the chapter 2. Location and Land 3. Climate and Vegetation. 4. Life of the People 5. Agriculture and Industry. 	<ol style="list-style-type: none"> 1. To make them familiar with the other countries of the world. 2. To make them aware of life style of another continent. 3. Their location, climate, vegetation and occupation. 	<ul style="list-style-type: none"> *Online quiz competition. *Write a short story on tribal family. *PPT's are shown. 	<ul style="list-style-type: none"> *Students will admire beauty of nature. *They will learn social and thinking life skills.
OCTOBER	Beginning of The Freedom Struggle	<ul style="list-style-type: none"> *The social reformers of our country *Birth of The Indian National Congress *Divide and Rule policy of the British * Swadeshi Movement *Sacrifice of the revolutionaries 	<ol style="list-style-type: none"> 1.To enhance their general knowledge. 2.To make the students aware of social reformers. 3.To make them understand the meaning of Freedom. 	<ol style="list-style-type: none"> 1.Role play by students. 2. Clippings of short film will be shown. 3. Collection of pics of revolutionaries. 	<ol style="list-style-type: none"> 1.Students will learn the virtues and values cherished by our freedom fighters. 2. They will learn the life skill of sacrifice.

NOVEMBER	Great Personality	<ul style="list-style-type: none"> *Socrates * Abraham Lincoln *Karl Marx *Martin Luther King * Mahatma Gandhi *Mother Teresa 	<ol style="list-style-type: none"> 1.To make the students aware about the sacrifices made by the great personalities to bring change in the society. 	<ol style="list-style-type: none"> 1.Online fancy dress competition. 2.Quotes by Great Personalities 	<ol style="list-style-type: none"> 1.Students will learn the value of truth, sacrifice, social service. 2.They will learn Social and thinking skill.
DECEMBER	Globe	<ul style="list-style-type: none"> *Shape of the Earth *Globe- Types and uses *Latitudes and longitudes *Grid 	<ol style="list-style-type: none"> 1.To enhance their general knowledge. 2.To develop practical approach. 3.To identify the time and location of various countries 	<ol style="list-style-type: none"> 1.Draw a sketch of globe, longitude, latitude and grid 	<ol style="list-style-type: none"> 1. Students will learn how to use their knowledge practically. 2. They will learn to locate location and time. 3. They will learn life skills of thinking.
JANUARY	The Birth of the United Nations	<ul style="list-style-type: none"> *League of Nations *Birth of United Nations *Objectives of the UN *Principles of UN 	<ol style="list-style-type: none"> 1. To make them aware of history of World Wars. 2. Birth of the United Nation. 	<ol style="list-style-type: none"> 1.Full forms of UN, UNSCO, UNICEF, UNHCR, WHO, FAO, etc. 2. Online quiz competition. 	<ol style="list-style-type: none"> 1.Students will learn importance of international peace and security. 2. They will learn life skill of thinking and sensitivity.
FEBRUARY	India wins Freedom	<ul style="list-style-type: none"> *Gandhiji's non-violent struggle for freedom *Rowlatt Act *Jallianwala Bagh Tragedy * Non-Cooperation movement *Chauri Chaura incident *Dandi March * Role of revolutionaries *Formation of INA by Subhash Chandra Bose 	<ol style="list-style-type: none"> 1.To make them aware of importance of freedom. 2.To stand against injustice. 	<ol style="list-style-type: none"> 1.Role play 2. PPT's are shown. 3. Write a short note on non-violence. 	<ol style="list-style-type: none"> 1.Students will learn the importance of non-violence and patriotism. 2.They will learn social and emotional lifeskills.

PUNJABI
